## About me

An enthusiastic learner who has a deep passion for coding I am really fascinated by the fact that only by a few lines of code we can convert someone's imagination into reality and make an actual impact which can help users in their daily life.

## Objective

To work in an environment where I could thrive to enhance my technical skills and also learn to analyze problems and situations from different perspectives and motivate myself to work on them

## Education

Bachelor in computer Engineering  
2017 - present

Kathmandu Engineering College

High School  
2015-2017

Trinity International College

School leaving certificate  
2015

Maitri School

## Skills

### Technical Skills

- React JS
- JavaScript HTML5/CSS3
- C
- C++
- Basic python
- Core Java
- Adobe illustrator

### Soft Skills

- Readiness to learn and eagerness to grow
- Teamwork
- Adaptability
- Self management

## Projects

Mini youtube with react (<https://trusting-shannon-0dcad7.netlify.app/>)

E-voting (<https://github.com/shreya-codes/e-voting.git>)

Sliding sign in-signup ([https://github.com/shreya-codes/sliding\\_signin\\_signup.git](https://github.com/shreya-codes/sliding_signin_signup.git))

Grocery list with cost estimation using local storage (<https://github.com/shreya-codes/grocery-project.git>)

Digital clock ([https://github.com/shreya-codes/shreya\\_wlit-digitalclock.git](https://github.com/shreya-codes/shreya_wlit-digitalclock.git))

Random color generator (<https://github.com/shreya-codes/colorflipper.git>)
